## Busbars & Links

### BARE LINK BAR SERIES

**Description:** 165A front wired numbered bare links with 2 studs to suit cable lugs. Available in 12, 18, 24, 36, 48 and 60 hole configuration. We can custom make to your size, amperage or to your specifications.

**Code:** BL165/12, BL165/18, BL165/24, BL165/36, BL165/48, BL165/60

**Split Qty:** 1

**Carton Qty:** 100, 100, 100, 50, 50, 50

### PLASTIC FEET BARE LINKS

**Description:** Plastic feet for bare links.

**Code:** BL/FEET-BLU, BL/FEET-GRN

**Split Qty:** 1

**Carton Qty:** 300

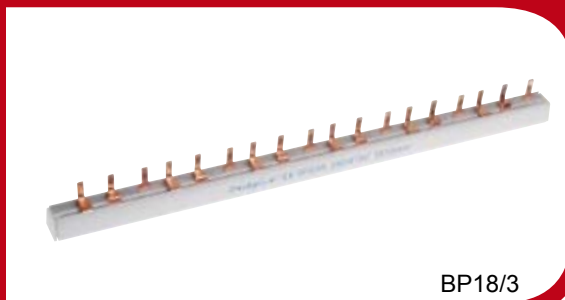

### INSULATED BUSBAR - PIN TYPE

**Description:** Insulated busbar available in a 12 or 18 pin configuration. Available in 1, 2, or 3 phase modules.

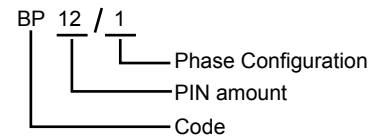

**Code:** BP12/1, BP12/2, BP12/3, BP18/1, BP18/2, BP18/3

**Split Qty:** 1

**Carton Qty:** 100

Example: BP12/1  
(12 Module 1 phase unit)

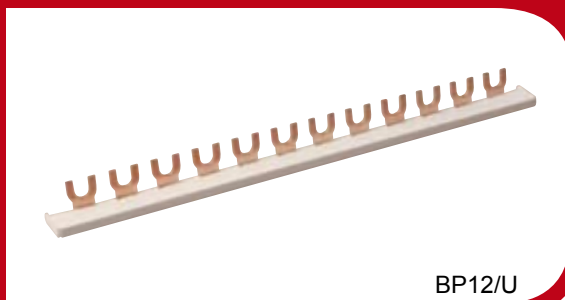

### INSULATED BUSBAR - U TYPE

**Description:** Insulated busbar U type available in a 12 or 18 pin configuration. Available in 1, 2, or 3 phase modules.

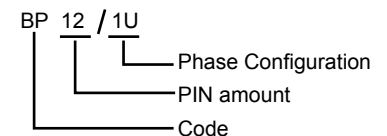

**Code:** BP12/1U, BP12/2U, BP12/3U, BP18/1U, BP18/2U, BP18/3U

**Split Qty:** 1

**Carton Qty:** 1000, 500, 500

Example: BP12/1U  
(12 Module 1 phase unit)

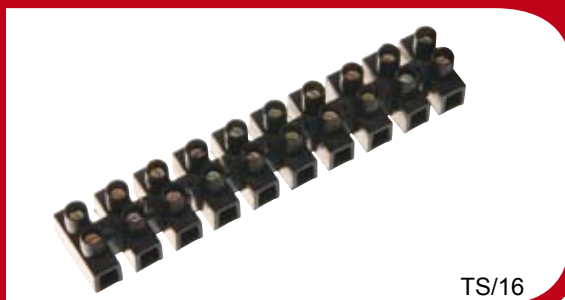

### TERMINAL STRIPS

**Description:** Terminal strips manufactured in accordance with IEC standards. Suitable for electrical appliances, lighting fixtures, small transformers and other applications which require safety connections and withstanding high temperatures.

**Code:** TS/4, TS/6, TS/10, TS/16

# Contactors & Accessories For Contactors

CONT/D5011

## CONTACTORS

**Description:** 660V AC contactors rated up to 95A and 50 or 60Hz. Suitable for making, breaking and frequently starting AC motors. Combined with the auxiliary contact block, timer delay & machine-interlocking device, it becomes the delay contactor, mechanical interlocking contactor and star-delta starter. With the thermal relay, it combines into the electromagnetic starter.

**Code:** CONT/D0910, CONT/D1210, CONT/D1801, CONT/D1810, CONT/D2510, CONT/D3210, CONT/D4011, CONT/D5011, CONT/D6511, CONT/D8011, CONT/D9511

## SAFETY & CONVENIENCE

INNOVATION BROUGHT TO YOU BY PULSET

### ■ COLLAPSIBLE SAFETY CONE

Safety innovation comes in a small package with our new collapsible safety cone. Featuring a durable yet flexible design that folds flat for easy storage under your car seat or in the boot. Also comes complete with a flashing light attachment simply press down to activate it. The collapsible Safety Cone is perfect for OH&S purposes, on the building site, in the office, home, car or for sports & recreation.

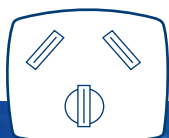

Folds flat for easy storage

#### Features:

- OH&S innovation
- Durable collapsible design
- Easy Storage
- Simple locking mechanism
- Highly reflective
- Comes with flashing light
- Multiple applications indoors or outdoors

## ENVIRO FLASHLIGHT

The Enviro flashlight uses no batteries and comes with a long life LED bulb. Leave it unused in your car's glove box for years with complete peace of mind-you'll get that all-important light when you need it. The Enviro Flashlight pays for itself quickly by saving you the cost of the batteries required to keep a standard flashlight in working order.

### Features:

- Environmental Innovation
  - Rechargeable capacitor
  - Simply shake to recharge
  - Save money (never buy batteries)
  - Continuous bright light
  - LED bulb for long life and high intensity
  - Waterproof case, that even floats
  - Maintenance free
- The flashlight that never lets you down! At home, in the car, in your camper, boat or storm emergency kit.
  - Enviro flashlight always ready-even if you haven't used or checked it in years!
  - This innovation uses the Farady Principle of Induction. This guarantees no replacement parts will ever be necessary!

EFLASHMINI

**Code:** EFLASH  
EFLASHLARGE

### Charging Flashlight

- Turn unit off
- Hold the unit parallel to the ground and shake it with moderate force about two or three times per second. The unit will provide you with more than four minutes of light when charged for 50 seconds.
- If the flashlight is completely run out, you should give the unit 90 shakes or about 30 seconds of shaking at 3 shakes per second to fully charge its capacitor. During prolonged use the flashlight should be turned off and shaken for 10-15 seconds at regular intervals.

## C-Type

This type suits general purpose applications and has magnetic trip settings which are 6 to 10 times the rated current depending on the product.

## D-Type

This type suits high inductive loads such as large motors and has magnetic trip settings which are 12 to 15 times the rated current.

## How to use the MCB curves

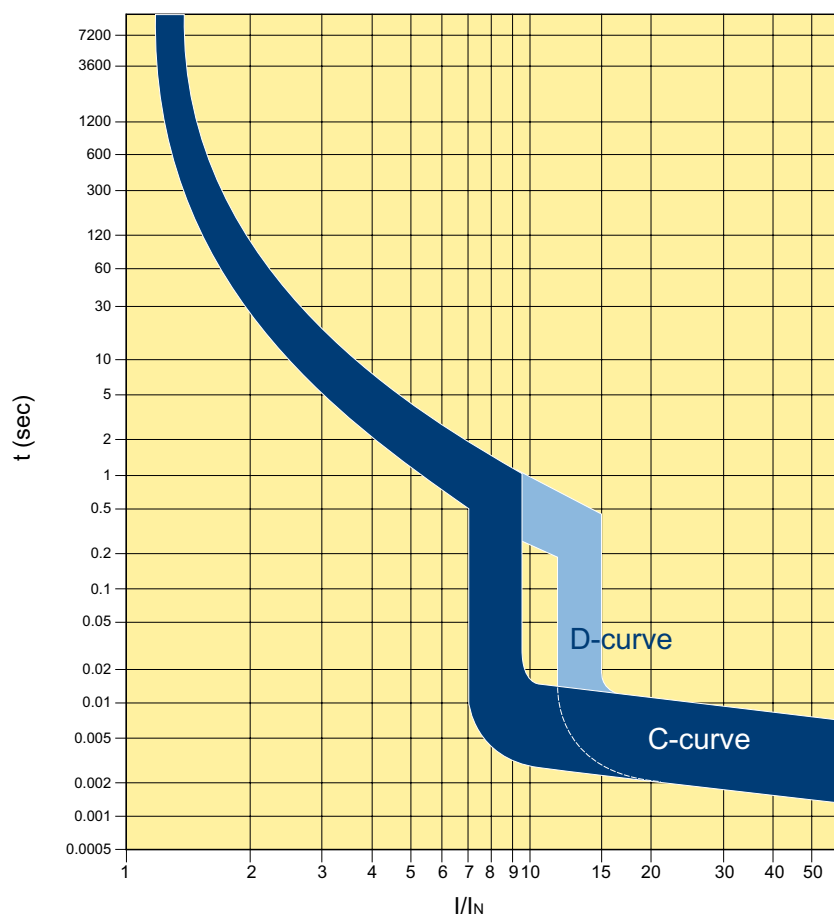

To determine the trip time of a 16A 1Pole 10kA MCB at 32A:

- Divide 32A over 16A = 2
- Refer to 10kA C-curve 1 I/In=2
- Therefore time to trip = 28s min and 120s max

To determine the MCB, 3Pole for a 7.5kW (14.4A) motor with start up current 6 times the nominal current for 10 seconds:

- Multiply 14.4A x 6 times = 86.4A
- Refer to 10KA C-curve at 10 seconds, I/In=2.5
- Divide 86.4A over 2.5 = 34.56A
- Therefore a 40A Circuit Breaker is satisfactory.

## Tripping Characteristics

### Note:

Curves C and D are based on average trip times between Circuit Breaker ranges. For more accurate illustrations, please contact our sales team.

Standard AC Circuit Breakers can be used up to 48V DC.

## TERMS & CONDITIONS OF SALE

I /we the company Director(s)/Partner(s)/Proprietor acknowledge that should an account be granted to the Company/Partnership/Business (the Debtor/ Purchaser/Customer) then the following conditions apply:-

1. The reference to the purchaser in these terms and conditions means the purchaser, his/her employees and any person appearing to have the authority of the purchaser.
2. The purchaser agrees that the payments to Pulset Pty Ltd will be made within 30 days from the date of the invoice and if at any time moneys are overdue, the whole debt then becomes due and Pulset Pty Ltd shall be at liberty to sue for the recovery of the whole debt. The Purchaser will be liable for all costs incurred by Pulset Pty Ltd in recovering the debt.
3. All amounts not paid by the purchaser within 30 days of the date of invoice shall bear interest at a rate being the equivalent to the amount allowed by the supreme court of New South Wales in respect of judgement debts as at the date of such invoice.
4. In the event of the supplier's written demand for payment remaining outstanding for a period of seven (7) days from the date of demand, the purchaser irrevocably authorises the supplier or his representative to enter any premises where the goods, or any of them, are situated, or where the supplier reasonably believes the goods, or any of them, are situated, and to take possession of and remove those goods without incurring any liability whatsoever.
5. Subject to the clauses contained in the Trade Practices Act 1974. Pulset Pty Ltd will not be liable to and will be indemnified by the purchaser or any third party which arise out of any defects whatsoever caused which may exist in any goods delivered by Pulset Pty Ltd to the purchaser. In cases where Part V Division 2 of the Trade Practices Act 1974 applies the Company shall be limited;(a) In the case of goods, to any one of the following as the Company in its sole discretion may determine:
  - (i) the replacement of the goods or the supply of equivalent goods; or
  - (ii) the repair of the goods; or
  - (iii) the payment of the cost of replacing the goods or of acquiring equivalent goods; or
  - (iv) the payment for having the goods repaired
6. Pulset Pty Ltd will not be liable in any manner what so ever for delay in delivery or non delivery which is attributed to transport delays, unavailability of materials, lockouts, shortages of vehicles or any other cause that may delay or cancel delivery. Quoted Delivery & Consignment dates are estimates only. A delivery & handling charge will be applied to all deliveries this will be borne by the Purchaser.
7. If at the request of the purchaser a delivery vehicle in the service of Pulset Pty Ltd enters a job site the purchaser will indemnify Pulset Pty Ltd against all claims from any person which may arise from entry onto the job site.
8. The prices quoted are subject to acceptance by the Client for the Goods as set out in the quotation or other such documents given by Pulset. The client accepts the quotation and/or the price quoted in this agreement and all the terms and conditions on the commencement of delivery by Pulset. All Quotation remains valid for seven days commencing from the date shown on the quotation. An acceptance received by Pulset after a period of 7 days from the said date is subject to the right of Pulset to alter the terms offered, including a revision of the price quotation.
9. All prices are correct at time of publication, & subject to change without notice. Prices do not include GST. This will be added to the invoice in accordance with the Tax Act.
10. The ownership of all goods delivered or sold by Pulset Pty Ltd to the purchaser remain the property of Pulset Pty Ltd until payment in full for all the goods delivered to the purchaser has been received by Pulset Pty Ltd, but the risk in the goods shall pass to the Client upon delivery to the Client's premises. It is the Customers responsibility to insure the goods.
11. Pulset Pty Ltd reserves the right to accept or decline any order or part of an order. Pulset requires all orders to be in writing, with a purchase order number quoted.
12. Unless otherwise requested, any goods ordered which are not in stock will be placed on backorder. Backorders will be supplied at the original purchase price.
13. No goods will be returned unless:-
  - \* Prior authorisation has been given by Pulset Pty Ltd
  - \* The correct invoice number has been quoted on the Purchasers return docket.
  - \* Returns are made within 7 Days after receipt of goods by the purchaser. At our discretion, if we accept the returns after this time a re-stocking fee of 20% may be charged.
  - \* Reason for return is clearly stated on Purchasers return form.\*No credit will be given on faulty goods until the fault has been confirmed by Pulset.
  - \* All goods returned must be in their original packaging & shall not be soiled, damaged or obsolete as such goods will be rejected or credited at a reduced price.
  - \* The cost of freight in returning goods will be the responsibility of the Purchaser.
14. Where goods are returned in accordance with section number 13. Only a credit note is issued. No cash refund will be given.
15. Pulset Pty Ltd shall not be liable to the customer for any false or misleading information given to the customer, or any damage caused by the negligence of the company's employees or agents.
16. The Purchaser may only be classed as a Distributor & therefore be given Distributor pricing at the discretion of Pulset. The Distributor must meet a specified sales amount ( given by Pulset ) in order to continue on the Distributor pricing level. If this is not fulfilled by the Purchaser, then Pulset may place the Purchaser on a different pricing structure.
17. All goods purchased are covered by the Building and Construction Industry Security of Payment Act.
18. These terms & conditions may be updated without notice. Copies of terms & conditions will be available for viewing upon request.

Illustrations, Photos and Packaging are only representations of the products listed, variations may occur from store to store. All products were available at time of printing, Pulset will not be responsible for the lack of stock due to supplier problems. Pulset reserves the right to limit purchases to normal retail quantities. VIP club pricing is only available to Pulset VIP Club members upon presentation of club card.
